

A Source of Reliability.

The Reliable Swiss Die-Cutter™
B350/B500

Swiss Die-Cutter™ B350/B500

Flexibility

Due to the high flexibility and wide range of applications, the high-performance Swiss Die-Cutter™ B350 and B500 can be found in all areas of industry worldwide. This applies both to flat packaging lids, such as yoghurt lids, as well as deep-drawn aluminium lids for pet food, such as cat and dog food.

Versatility

Perforated lids for contact lens blisters, paper labels on beverage bottles and labels for IML applications on coffee cups for daily use are also produced on BERHALTER die-cutting systems. We regard the development of die-cutting tools as a holistic task and strive for world-class quality in all areas.
